PUBLIC BUILDING COMMISSION OF CHICAGO

Contract No. 1490

MICHAEL REESE HOSPITAL CAMPUS DEMOLITION AND ABATEMENT

I. INTRODUCTION

Thank you for your interest in bidding on this project, which is being undertaken by the Public Building Commission of Chicago. The Public Building Commission of Chicago (hereafter, the PBC, or Commission) is a municipal corporation with a statutory mandate to procure and award contracts for the construction of public buildings in the City of Chicago, and to oversee the construction of those public buildings until they are turned over to the user agency that will own and operate each new facility.

The Commission, the City of Chicago and Chicago 2016 have agreed to a not-to-exceed budget for this Project. This budget includes funding for the demolition and abatement work that comprises Scope of Work in this bid as well as the engineering, management, rock crushing, general conditions and supervision of this Work. The budget also includes a contingency for unforeseen conditions that will not be made a part of this bid. It is the intention of the Commission to make as many awards for the demolition and abatement of buildings (in accordance with Paragraph III.T Canvassing of Bids) as prudent budgeting permits. The total project not-to-exceed budget less the other budgeted items (engineering, management, rock crushing, general conditions and supervision costs) are the "Available Funds" for this Work.

This is the first page of text of Book 1, which along with Book 2, Book 2A, Book 3, and the project drawings, comprise the PBC's construction contract. The balance of this Book 1 provides a brief description of the project, instructions for completing and submitting your bid, the bid pages, and the forms which must accompany your bid. Book 2 is the Standard Terms and Conditions of the contract. Book 2A is the Standard Terms and Conditions Procedures Manual. Book 3 is the Technical Specifications for the work to be performed on this project. The PBC's architect or engineer for the project will provide the drawings and other documents that may be necessary for you to bid on and/or perform the work. Each of the Books, along with the drawings and any other documents prepared by the PBC, its architect or engineer, are Contract Documents. Collectively, the Contract Documents comprise the Contract. The Contract Documents are defined in Section 1 of Book 2, Standard Terms and Conditions.

III. INSTRUCTIONS FOR BIDDERS

A. Examination of Documents By Bidder

The Bidder shall, before submitting its bid, carefully examine all Contract Documents, including but not limited to, the Project Information, Instructions to Bidders, and Execution Documents (Book 1); Standard Terms and Conditions (Book 2); Standard Terms and Conditions Procedures Manual (Book 2A) Technical Specifications (Book 3); plans; drawings; Addenda (if any); and bonds. The Bidder will be responsible for all errors in its bid resulting from failure or neglect to comply with these instructions.

B. Interpretations of Addenda

The Commission will not furnish oral interpretations of Contract Documents, before or subsequent to the award of a contract. If an interpretation is desired by a prospective Bidder, the interpretation should be requested in a letter addressed to the PBC, attn: Janice Meeks, Senior Contract Officer, email; janicemeeks@cityofchicago.org or by fax 312-744-3572. Every interpretation or revision will be in the form of an addendum to the Contract Documents and, when issued, will be on file in the office of the Commission. Although all addenda will be faxed, e-mailed, or mailed to each Bidder obtaining Contract Documents, it shall be the Bidder's responsibility to inquire as to the addenda issued. All such addenda shall become part of the Contract and attached thereto and all Bidders shall be bound by such addenda, whether or not received by the Bidders.

C. Inspection of Site

Bidder shall inspect the Site to become familiar with the conditions relating to the Work to be performed, the facilities involved, and the difficulties and restrictions attending the performance of this Contract. D. Pre-Qualification of Bidders

1. Notice of pre-qualification has been provided by the Commission to all firms "pre-qualified," and only firms that have received notification of pre-qualification are eligible to bid on this Contract. Pre-qualified firms are eligible to bid either as the entity that was pre-qualified or as a joint venture with another firm, provided that the pre-qualified firm has a controlling interest in the joint venture.
2. The Commission reserves the right to take such steps as it deems necessary to determine the continuing qualifications of the Bidder to adequately perform the requirements of the Contract, and the Bidder shall furnish to the Commission all information and data requested for this purpose. Failure of the Bidder to cooperate with the Commission in its investigation or submit any additional documents requested by the Commission shall be grounds for disqualification.
3. Regardless of a bidder having been prequalified, failure to attend any mandatory pre-bid meetings will disqualify the bidder from bidding or being awarded a contract for any part of the Work.

E. Evidence of Continuing Qualifications of Bidder

1. The Commission reserves the right to refuse to award a Contract to any person, firm, or corporation that is in arrears or is in default to the Commission upon any debt or contract, or that is a defaulter, as surety or otherwise, upon any obligation to the Commission, or had failed to perform faithfully any previous contract with the Commission, or any of the User Agencies on whose behalf the PBC constructs public buildings.

S. Evaluation of Bids

PUBLIC BUILDING COMMISSION OF CHICAGO

Contract No. 1490

MICHAEL REESE HOSPITAL CAMPUS DEMOLITION AND ABATEMENT

1. The Commission reserves the right to check all calculations and to correct all extensions in case of error in order to determine the correct amount of the Total Base Bid and/or the total amount of any other schedule required.
2. Along with reviewing the calculations of each bid, the Commission will evaluate each Bidder's responsiveness to all Bid requirements and responsibility.
3. The Commission may require that the apparent low bidder and any other bidder submit a breakdown of their bids by CSI Division or other appropriate basis. The Commission may also require the apparent low bidder or any other bidder to attend a pre-award meeting to review their bids in detail.

T. Canvassing of Bids

The PBC will canvass the Total Base Bid by Building Group offered by all Bidders. Award of any or all Building Groups or individual Buildings (in the case of Building Group D) shall be subject to the Available Funds. If one or more of the Building Group Total Base Bids is less than the Available Funds, award(s) will be made to the responsible bidder for each Building Group with the lowest Total Base Bid for the Building Group as further defined below. The Total Base Bids for each Building Group will be canvassed in the following order: Group E, Group C, Group B, Group D. It is the intention of the Commission to make as many awards for the demolition and abatement of buildings in accordance with this paragraph as prudent budgeting permits. The total project not-to-exceed budget less the budgeted engineering, management, general conditions and supervision costs are the "Available Funds" for this Work.

1. Group E

The Total Base Bid for Group E will be canvassed. If one or more of the Total Base Bids for Building Group E is less than the Available Funds, Building Group E will be awarded to the responsible bidder with the lowest Total Building Group Bid for Group E.

2. Group C

The Total Base Bid for Group C will then be canvassed. If one or more of the Total Base Bids for Group C added to the award amount for Building Group E is less than the Available Funds, Building Group C will be awarded to the responsible bidder with the lowest Total Base Bid for Group C.

3. Group B

The Total Base Bid for Group B will then be canvassed. If one or more of the Total Base Bids for Group B added to the award amount for Building Group E and Building Group C is less than the Available Funds, Building Group B will be awarded to the responsible bidder with the lowest Total Base Bid for Group B.

4. Deductive Alternates

If the sum of the Total Base Bids for Group E, Group C and Group B is not less than the Available Funds, the Commission may then exercise Alternate # 1 and deduct the Alternate Amount from the lowest responsible bidder for Group E and if the sum of the Total Base Bids for Group E (with deductive alternate), Group C and Group B is less than the Available Funds, Group E will be awarded with the deductive alternate exercised.

If the sum of the Base Bids for Group E (with deductive alternate), Group C and Group B is not less than the Available Funds, the Commission may exercise Alternate # 2 and deduct the alternate amount from the lowest responsible bidder for Group B and if the sum of the Total Base Bids for Group E (with deductive alternate), Group C and Group B (with deductive alternate) is less than the Available Funds, Group E and Group B will be awarded with the deductive alternates exercised.

5. Group D

The Total Base Bid for Group D will then be canvassed. If one or more of the Total Base Bids for Group D added to the award amount for Building Group E and Building Group C and Building Group B is less than the Available Funds, Building Group D will be awarded to the responsible bidder with the lowest Total Base Bid for Group D. If the Sum of the Total Base Bids for Group E, Group C, Group B and Group D is not less than the Available Funds,

PUBLIC BUILDING COMMISSION OF CHICAGO

Contract No.1490

MICHAEL REESE HOSPITAL CAMPUS DEMOLITION AND ABATEMENT

the Commission may award, at its sole discretion, contracts for individual buildings in Group D to the responsible bidder with the lowest Total Base Bid for Group D; provided the total amount of contracts awarded including individual buildings for Group D does not exceed the Available Funds.

6. Pre-Qualified Bidders

Pursuant to Section III.D, bidders for this work have been pre-qualified by the PBC. Bidders receiving notice of pre-qualification limiting the scope of work to be awarded to one Building Group or a specific Building Group due to limited bonding capacity or other reason as specified in the pre-qualification notice sent the bidder will be not be considered in further canvassing or be eligible for additional Building Groups after the bidder has been awarded a Building Group or the specific Building Group for which the bidder was pre-qualified.

U. Basis of Award

Individual awards will be made for one or more Groups (Groups E, C, B or D) based on their prequalification to the responsible Bidder submitting the lowest Award Criteria Figure Bid for each Group in accordance with Section III.T and Section V.A and otherwise responsive to all the requirements of the Contract Documents.

V. Performance and Payment Bond and Insurance

1. Each Bidder shall furnish proof of its ability to provide the bonds and insurance required by the Contract with its bid. With respect to the payment and performance bonds, a letter from the Bidder's surety affirming the surety's willingness to provide the Bidder's bonds is sufficient. With respect to the insurance, either a letter from the Bidder's insurer, or a certificate showing that the Bidder currently possesses the required coverage, is sufficient.
2. The insurance requirements for this project are as follows: The Contractor must provide and maintain at Contractor's own expense, the minimum insurance coverage and requirements specified below, insuring all operations related to the Contract. The insurance must remain in effect from: the date of the notice to proceed until Substantial Completion of the project, during completion of Punch List, as well as any time Contractor returns to perform additional work regarding warranties or for any other purpose
- A). Insurance To Be Provided By the Contractor
The insurance requirements are attached as Exhibit 2.
3. Upon approval by the Commission to award, and within five (5) days after being given notice, the successful Bidder must execute and deliver to the Commission the Performance and Payment Bond in the form included in the Contract Documents, and evidence of the required insurance coverage.
4. The Performance and Payment Bond shall be in the form provided herein, in the full amount of the Base Contract Price and shall be security for the faithful performance of the Contract and payment of all persons, firms, or corporations to whom the Contractor may become legally indebted for labor, material, facilities or services of any nature, employed or used by it in performing the Work. The current power of attorney for the persons who sign for any surety company shall be attached to such bond. Such power of attorney shall be sealed and certified with a "first hand signature" by an officer of the surety. A facsimile signature will not be accepted by the Commission. The Commission reserves the right to approve the surety company.
5. The failure of the successful Bidder to supply the required Performance and Payment Bond or evidence of the required insurance coverage within five (5) days of notice, or within such extended period as the Commission may grant based upon reasons determined sufficient by the Commission, shall constitute a default and the Commission may either award the Contract to the next lowest responsible bidder or re-advertise for bids. The difference between the amount of its bid and the amount for which a contract for the work is subsequently executed may be charged against the Bidder, irrespective of whether the amount thus due exceeds the amount of the bid

PUBLIC BUILDING COMMISSION OF CHICAGO

Contract No.1490

MICHAEL REESE HOSPITAL CAMPUS DEMOLITION AND ABATEMENT

security. If a more favorable bid is received by re-advertising, the defaulting Bidder shall have no claim against the Commission for a refund. Because of the difficulty of ascertaining the damage caused to the Commission, such sum shall be considered liquidated damages and shall not constitute a penalty. The election by the Commission to grant an extension to the period allowed for the bidder to provide an acceptable performance and payment bond and/or evidence of insurance coverage shall not entitle the bidder to an extension of time required to complete the Work.

W. Protests

1. The bidder shall submit any protests or claims regarding this solicitation to the office of the Commission's Executive Director. A pre-bid protest must be filed five (5) days before the bid opening date, a pre-award protest must be filed no later than ten (10) days after the bid opening date, and a post-award protest must be filed no later than ten (10) days after the award of the Contract.
2. All protests or claims must set forth the name and address of the protester, the Contract number, the grounds for the protest or claim, and the course of action that the protesting party desires that the Executive Director take.

Y. Award of Contract; Rejection of Bids

1. The Contract(s) will be awarded to the responsive, responsible Bidder submitting the lowest Total Base Bid by Building Group, as defined herein and in accordance with Section T above, complying with all conditions set forth in the Contract Documents.
2. **The Bidder agrees that its bid shall be in effect until midnight, August 15, 2009, and that the bid may not be withdrawn until that time.**
3. The Bidder(s) to whom the award is made will be notified as soon as practicable after the Commission approves award of the Contract. This written notification constitutes the Notice of Award and acceptance of the bid submitted.
4. V. PROPOSAL SUPPORT DOCUMENTS

A. Basis of Award (Award Criteria)

To promote the intended goal of economic opportunity and maximize the use of minority personnel on this project, the Public Building Commission of Chicago has established the Award Criteria formula for the purpose of evaluating proposals and awarding the contract. A contract in the amount of the total Base Bid or Base Contract Price will be awarded to the responsible bidder with the lowest Award Criteria Figure. The Public Building Commission of Chicago reserves the right to check all calculations for accuracy. The fulfillment of the Award Criteria does not abrogate the responsibilities of the Contractor to comply with federal and state requirements under the *Equal Employment Act* and the *Illinois Human Rights Act*.

1. Instructions

The Bidder shall complete the Award Criteria Formula and transfer the final Award Criteria Figure - Line 15 to the space provided on the itemized proposal sheet. Failure to complete the formula may be cause for rejection of the Bidder's proposal. The successful bidder will be held responsible for adhering to the figures submitted in Lines 1, 2, 4, 6, 8, 10 and 12 during construction of the project.

Lines 2, 4 and 6 in the formula shall not be greater than fifty percent (50%) in each category for the sole purpose of determining award of the contract. Similarly, lines 8, 10 and 12 shall not be greater than ten (10%) percent in each category for the purpose of award criteria only. The fifty percent (50%) and ten percent (10%) goals are not intended to restrict the total number of minority and female employees to be used on the project, but only to establish limiting figures for use in the formula. Journeyworker includes journeyworkers from the major trades listed herein, and the teamsters. Watchmen and custodial workers are not creditable in the formula.

3. Community Hiring Bonuses

In order to encourage maximum employment of interested and available residents of the project community on this project, the following bonus calculations shall apply:

- a. In calculating the hours worked by minority and women journeyworkers, apprentices, and laborers under the Award Criteria set out in Part V.A. "Basis of Award (Award Criteria)," all hours worked by minority and women journeyworkers, existing apprentices, and laborers who are residents of the project community shall be multiplied by 1.5.
- b. In calculating the hours worked by minority and women apprentices under the Award Criteria set out in Part V "Proposal Support Documents," all hours worked in new apprenticeships by minority and women apprentices who are residents of the project community shall be multiplied by 2.0.

Definitions

"Actual residents of the City of Chicago" shall mean persons domiciled within the City of Chicago. The domicile is an individual's one and only true, fixed, and permanent home and principal establishment.

"Residents of the project community" shall mean persons domiciled within the project area as stated in Section II.A.G., above..

"New Apprenticeship" shall mean an apprenticeship begun for a person who has not held an apprenticeship card within ninety (90) days prior to beginning the project.

4. Liquidated Damages

The Contractor hereby consents and agrees that, in the event that it fails to comply with each of the minimum commitments submitted with this Proposal on Lines 2, 4, 6, 8, 10, and 12 of the Award Criteria Formula, covering minority and female Journeyworkers, apprentices, and laborers respectively, the following shall apply.

If the total hours in any category for which a percentage is assigned in Lines 2, 4, 6, 8, 10, or 12 of the Award Criteria equals zero at the completion of the work, then a net deficiency of the entire percentage assigned will be deemed to exist. For any net deficiency in each category, the following amounts shall be deducted as liquidated damages from monies due the Contractor and the Contract Sum modified accordingly:

- a. For each full one (1%) percent deficiency of minority Journeyworkers not utilized – four cents per each hundred dollars of the base bid calculated as follows:

$$\frac{\text{Line 1 x 04}}{100}$$

Each one (1%) percent deficiency toward the goal for female Journeyworkers (Line 8) shall be calculated in the same way.

Contract No. 1490

MICHAEL REESE HOSPITAL CAMPUS DEMOLITION AND ABATEMENT

Each one (1%) percent deficiency toward the goal for female laborers (Line 12) shall be calculated in the same way.

- d. Liquidated damages, if any, will be calculated for the first pay requests reflecting fifty percent (50%) completion, seventy-five percent (75%) completion, and ninety percent (90%) completion, respectively, based upon the Contractor's pay request together with all attendant certified payrolls and other required documentation of minority and women employment. The accrued liquidated damages and interest will be added to the retention provided elsewhere in this contract. The amount of liquidated damages due to the Commission under this provision will bear compound interest at the rate of 5% per annum, compounded monthly from the date of the Notice to Proceed to the date of approval of a deductive change order for liquidated damages. Should the total amount of liquidated damages due under all provisions of this contract exceed the amount of the Commission's retainage, compound interest on the amount over and above the retainage will continue to accrue until the entire amount of liquidated damages and compound interest is paid to the Commission.
- e. The Commission is aware that certain subcontract agreements under this contract may require subcontractors to contribute to payment of liquidated damages assessed under this provision. Should enforcement of subcontract liquidated damages provisions result in an aggregate total of subcontractor liquidated damages greater than the liquidated damages assessed hereunder against Contractor, then Contractor must pay the excess pro rata as a bonus to each subcontractor exceeding its subcontract commitments for minority or women employment, or both.

5. Reporting

In accordance with this commitment, the Contractor must submit both the Contractor's Payroll Record Form and the Contractor's Recapitulation of Minority and Female Worker Hours and Percentages Form on a monthly basis. All Subcontractors shall be listed on the Contractor's Recapitulation Form whether active or not. For the purpose of this report, the following group categories will be used:

- a. The classification "White" includes person of Indo-European descent.
- b. The classification "Black" or "African-American" includes persons having origins in any of the black racial groups of Africa.
- c. The classification "Hispanic" includes persons whose origins are from Mexico, Puerto Rico, Cuba, Central or South America, the Caribbean Islands or other Spanish culture or origin, regardless of race.
- d. The classification "Native American" includes persons who are Native Americans by virtue of tribal association.
- e. The classification "Asian-Pacific" includes persons whose origins are from East Asia, Southeast Asia, the Pacific Islands or the Indian sub-continent.
- f. The classification "Other" includes qualified individuals with disabilities who meet legitimate skill, experience, education or other requirements of employment positions held or sought and who perform the essential function with or without reasonable accommodation and other groups or other individuals found by the Public Building Commission of Chicago to be socially and economically disadvantaged and to have suffered actual racial or ethnic discrimination and decreased opportunities to compete in Chicago area markets.

Demolition Elevation Guide, Building Group D, Dated June 30, 2009 by hbk Engineering
Demolition Elevation Guide, Building Group E, Dated June 30, 2009 by hbk Engineering

QUESTIONS AND ANSWERS:

- Q1: Page 9, 3.4, C states that all materials removed from the site must go to a subtitle D landfill. Does this preclude the contractor from recycling materials (i.e. steel, common brick) that leave the site and from using a licensed transfer station that may provide recycling credits and M/W/B/V participation?
- A1: **All non-recyclable materials including painted concrete must be disposed of at an open and operating Subtitle D landfill.**
- Q2: Will the loose tenant items such as furniture, beds, records, equipment and general rubbish be removed by others prior to our work?
- A2: **Yes**
- Q3: Can masonry materials be delivered to the on site crushing operation to be used for fill (ref. pg. 9, 3.4, D)? This would substantially contribute to the LEEDS objectives.
- A3: **No**
- Q4: Is the centralized on site rock crushing operation (ref. pg. 9, 3.4, D.) to be provided by others?
- A4: **Yes. However, the PBC will be modifying the bid form and asking bidders to provide an add alternate bid to perform rock crushing operations for each building group within the construction limits of each building group E, C, B and D.**
- Q5: The contractor is responsible for placing the crushed CA-6 material in the basements of the demolished buildings (ref. pg. 9, 3.4, D.). The contractor is also required to provide additional material necessary to complete the filling specified (ref. pg.9, 3.4, D, 1). How will the use of the on site crushed CA-6 material be apportioned to the Groups B, C, D and E contractors so that there is an equitable and proportional distribution of the crushed material?
- A5: **Crushed material will be apportioned to each building group site based on the tonnage of material delivered to the rock crushing operation from the building group.**
- Q6: Are the tunnels to remain (ref. pg.4, 1.1, A, 4) or be removed (Drwg A-002 General Notes 1 & 2)?
- A6: **Tunnels within the construction limits of a building group are to be abated and all non-concrete materials removed therefrom. Tunnels to remain per revised Drawings A-002 – A-008.**
- Q7: Please provide a drawing showing the routes of the utilities that need to be maintained until 1/1/10 for Building 6 (ref. pg. 7, 1.1, D, 8)?
- A7: **Building 6 shall be assumed to function as a stand-alone building. The PBC will provide existing utility drawings for reference only in an addendum to follow.**
- Q8: Does maintaining Building 6 utilities until 1/12/10 affect other building Groups besides Group E? Do utilities serving building 6 originate or run through Groups B, C or D?
- A8: **See response to Q7.**
- Q9: Book 1, page 18 states alternate deduct amounts of \$(1,500,000.00) for Alternate #1 and \$(650,000.00) for Alternate #2. These amounts are typically determined by the contractor. Are these predetermined amounts stated in error?
- A9: **No. The deductive alternates in the amounts specified shall be exercised pursuant to Book 1, Section III.T Canvassing of Bids. See revised Section III.T.**

- A14. **Yes. See Addendum Drawings Demolition Elevation Guide, Group C, by hbk Engineering dated June 30, 2009.**
- Q15. Where on the Bid Form should the contractor provide a unit price for the removal and extraction of pile foundations (ref. Book 3, pg. 7, 1.1, D, 7)?
- A15. **Unit Price for pile removal is no longer required. Reference thereto is deleted from the revised bid form and specification.**

- A16. **Subsurface Investigation was provided on CD.**
- Q17. Book 3, page 89 1.1 is contractor responsible only for repairs of damages it causes and maintenance, and is it a correct assumption that furnishing of fence is by another PBC contractor?
- A17. **Furnishing and installation of fence will be provided under separate contract. Contractor will be required to maintain and repair fence at Building Group.**
- Q18. Book 1, pages 59&60. Items 2&3 indicate limits of insurance subcontractors working for Contractor must maintain, however the language of items 4, 5& 8 say Subcontractors performing work for Consultants, is Consultants an error that should be replaced with Contractor?
- A18. **In Book 1, Exhibit #2 Insurance Requirements, replace 2nd paragraph of items 4, 5, and 8 to read as: Subcontractors performing work for Contractor must maintain limits of not less than \$1,000,000 per occurrence with the same terms herein.**

ADDENDUM NO. 2 to CONTRACT NO. 1490

ARTICLE 13. QUALITY OF WORKMANSHIP, MATERIALS, AND EQUIPMENT

Section 13.01 Standard of Performance

In addition to performing the Work in full compliance with the Contract Documents, the Contractor will perform, or cause to be performed, all Work required of it under the terms and conditions of this Contract with that degree of skill, care, and diligence normally exercised by qualified and experienced demolition contractors in performing work in projects of a scope and magnitude comparable to the Project.

Section 13.03 Labor, Materials and Equipment

1. All labor will be performed by workers skilled in their respective trades.
2. Any Work, materials or equipment which does not conform to these requirements or the standards set forth in the Contract Documents may be disapproved and rejected by the Architect or Commission.
3. The Contractor will keep proper inventories, provide adequate protection against the weather, and maintain security measures against theft and vandalism.
4. The Site will not be utilized for the storage of vehicles, materials, equipment, or fixtures not intended for this Project.
5. The Contractor will review any specified construction or demolition procedures (including those recommended by any subcontractors). The Contractor will advise the Architect and Commission Representative in writing 7 Days prior to commencing Work, on items affected:
 - a. if any specified procedure deviates from good construction practice;
 - b. if there are any objections which the Contractor may have to any specified procedure.

Section 13.04 Source of Materials

Contractor will notify the Commission Representative in writing as soon as possible after the Contract has been awarded, but not less than 3 weeks prior to the need for inspection and testing of the source (or sources) from which Contractor expects to obtain the various construction materials. The source of supply of each materials used will be approved by the Commission before delivery is commenced. If sources previously approved are found to be unacceptable at any time and fail to produce materials satisfactory to the Commission, the Contractor will furnish materials from other approved sources.

Section 13.06 NOT USED

Section 13.07 NOT USED

Section 13.08 Correction of Work Before Final Payment

1. When Work is rejected by the Commission as failing to conform to the Contract Documents, the Contractor must promptly re-execute such Work in accordance with the Contract Documents and without expense to the Commission. Contractor will also bear the expense of making good all work of other contractors destroyed or damaged by such re-execution.
2. If the Contractor does not re-execute such rejected Work within a reasonable time, as determined by written notice of the Commission, the Commission may, at the expense of the Contractor, re-execute such rejected Work as the Commission

**PUBLIC BUILDING COMMISSION OF CHICAGO
ADDENDUM NO. 2 to CONTRACT NO. 1490**

sees fit. If the Contractor does not pay the cost and expenses of such re-execution within 10 Days, the Commission may deduct all such costs and expenses from any monies due the Contractor.

3. If the Work deviates from the requirements of the Contract Documents, the Contractor will be responsible for all resulting damages. A claim by the Contractor that performing the Work without deviation from what is required by the Contract Documents would also have caused or resulted in damages will not be available to the Contractor as a defense or a claim to reduce the Contractor's liability. This provision does not limit the other rights of the Commission or Architect or other obligations of the Contractor.

4. When the Commission requires additional services from its Architect because of defective Work, neglect, failure, deficiencies, or default by the Contractor, the Architect's compensation for such services are payable by the Contractor. The Architect's invoice, as approved by the Commission, along with other costs, damages, and liabilities incurred by the Commission and/or the Architect, may, in the Commission's sole discretion be the basis for decreasing the Contract Price by Change Order in order for the Commission to recover the cost of additional services from the Architect.

Section 13.09 Correction of Work after Final Payment

The final acceptance of the Project, final payment, or any provision in the Contract Documents does not relieve the Contractor of responsibility for faulty materials or workmanship. Unless otherwise specified, the Contractor will remedy any defects and pay for any damage to other Work resulting therefrom. The Commission will give timely written notice of such defects.

The Commission, the Architect, the Commission Representative, and all consultants of the Commission retained to do testing, monitoring or inspection, will at all times have access to the Work wherever and whenever it is in process. The Contractor must provide proper and safe facilities for access and inspection.
2. The Contractor will cooperate with inspecting agencies and provide appropriate access. If the inspection is made by an authority other than the Architect or Commission, the Contractor will inform the Architect and Commission Representative in writing of the date fixed for such inspection no less than 3 business days prior to such date.
3. If the specifications, the Architect's instructions, laws, ordinances or any public authority require any Work to be specifically tested or approved, the Contractor will give the Commission Representative no less than 3 business days written notice of the Work's readiness for inspection by the Architect. Required certificates of inspection must be secured by the Contractor. Inspections by the Architect will be promptly made, and where practicable, at the source of supply. When such tests and inspections indicate noncompliance of the Work with requirements of the Contract Documents, and the Architect's services are required for additional reviews or inspections of the Work, the Contract Price may be decreased by a Change Order in the amount of the Architect's invoice approved by the Commission as compensation for the Architect's additional services.
4. The Contractor will place its field engineering force at the Commission Representative's disposal for field checking during any inspection period.
5. The Architect is not authorized to make any changes or modifications in the Contract Documents, to direct the performance of additional Work, or to waive the performance by the Contractor of any requirements of the Contract Documents. Any changes to the Work will be in accordance with the provisions of Article 17. "Changes in the Work."
6. Prior to commencement of demolition of structure when abatement activities have been completed, Contractor shall notify Commission Representative and provide sufficient time for Commission Representative or its consultant to review condition of building prior to commencing structural demolition.

Section 14.02 ASTM Standards

Unless otherwise provided, all materials will be sampled and tested in accordance with the latest published standards and methods of the American Society for Testing and Materials (ASTM) and any revisions thereof. If there are no ASTM standards that apply, applicable standard methods of other recognized standardizing agencies will be used. Contractor must provide the name and qualifications of any such standardizing agency to the Commission or its authorized representative for review and approval.
