Commissioner Brazier next presented to the Board of Commissioners a report of the Audit Committee meeting held on June 3, 2010 which is summarized as follows:

- ◆ **Report by Director of Finance** – The Director of Finance provided highlights of the 2009 financials. Specifically, the improvements in processes have allowed a much earlier Audit completion. In addition, it was reported that the net assets for 2008 were restated to conform to the Commission's new practice for recognizing its administrative fee revenue on projects. Net assets for 2009 were relatively flat compared to the restated 2008 figure. Investment income has continued to decline due to record low interest rates throughout 2009. The Commission will be gauging interest from firms for providing investment management advisory services to ensure that interest income on investments is prudently maximized.
- ◆ **Report by Deloitte and Touche** – Deloitte & Touche, LLP provided the required auditor communications for the 2009 Audit. Deloitte began its presentation by describing the schedule improvements within this year's audit. The acceleration throughout the process was facilitated by improvements within the Finance section, specifically, the establishment of policies and procedures and timely production of audit deliverables. These improvements have allowed Deloitte to provide the communications three months earlier than those associated with the 2008 audit. Deloitte stated that there will be no material weaknesses or significant deficiencies in the 2009 management letter. Deloitte summarized the two significant adjustments made to the PBC's financials for 2009 and the two for 2008. Final financial statements will be provided to the Board as part of the Comprehensive Annual Financial Report (CAFR), which will be finalized and submitted to the Government Finance Officer's Association (GFOA) by June 30<sup>th</sup>.
- ◆ **Report by Prado & Renteria** – Representatives from Prado & Renteria presented a favorable report on their review of various policies and procedures for the first and second periods. Work to be completed in the third period was outlined in the Engagement Letter. The engagement Letter was accepted by the Audit Committee.

The report of the Audit Committee was accepted.

Next, Commissioner Donaldson presented a report regarding the Administrative Operations (AO) meeting held on June 3, 2010 which is summarized as follows:

- ◆ **Reports by the Executive Director.** The AO Committee was advised concerning three (3) bid openings and proposed awards for trade subcontracts for the Ogden Elementary School as follows: (a) asphalt paving; (b) ceramic & quarry tile; (c) wood flooring/stripping; (d) resilient flooring/carpet; (e) signage; and (f) elevators. Also, The Executive Director summarized the PBC Site Development Guidelines.
