Illinois Fire Services Association Excellence in Public Safety Award for the Sprinkler Retrofit at the Daley Center

Board Meeting
November 13, 2012

- Through diligent process analysis, the PBC was able to implement the life safety systems upgrade for almost half of the originally budgeted cost and without disruption to the daily business operations at the Daley Center.
- The installation of a new fire suppression (sprinkler) system throughout the entire 1.5 million square feet of the building, and completed within the Chicago Landmark requirements.
- The installation and replacement of Fire Alarm Panel, Annunciator Panel and life safety devices such as smoke detectors and audio visual devices throughout the building.
- Sprinkler work completed in Spring 2012 prior to the deadline of January 2015 for life safety evaluation compliance with regard to pre-1975 high-rise buildings.
